

Raghu Pothula

Senior Cloud Engineer

📍 Hyderabad, India | 📞 +91-9848399951 | ✉️ raghavendra.pothula@outlook.com

Professional Summary

Results-driven Senior Cloud Engineer with over 8 years of experience in cloud infrastructure and network operations. Expert in troubleshooting complex production issues, managing enterprise-grade TCP/IP networking, and optimizing scalable cloud architectures. Proven track record in a high-pressure, customer-facing support role, maintaining a 90% customer satisfaction rate by providing level-two support and driving critical incident resolution. Skilled in Linux systems, kernel-level troubleshooting, and network protocol analysis. Passionate about improving product supportability through root cause analysis and automation.

Skills

- **Technical Troubleshooting:** 8 years of experience triaging hardware, software, application, and operational issues.
 - **Networking Protocols:** TCP/IP, DNS, Routing, Firewalls, Load Balancing, VPN, VPC, Peering, HTTP/HTTPS.
 - **Network Diagnostics:** Packet capture (tcpdump/Wireshark) and interpretation, network namespaces, TCP kernel parameter tuning.
 - **Systems & Kernels:** Deep experience with Linux (Red Hat, CentOS, Debian, Ubuntu) kernel/file systems and Windows Server.
 - **Coding/Scripting:** Proficient in Python and Shell Scripting (Bash).
 - **Cloud & Containers:** GCP, AWS, Oracle Cloud, Kubernetes (GKE), Docker.
-

Professional Experience

Cloud Support Engineer - Senior Associate

Google Operations Center, Hyderabad | Oct 2021 - Present

- Successfully resolved critical, escalated, and complex production issues on GCP, consistently achieving a 90% customer satisfaction rate.
- Act as a lead advocate for customer needs, triaging complex technical issues and collaborating with Google engineers to troubleshoot at the code level.
- Deep expertise in TCP/IP networking, including VPC architecture, load balancing, and firewall implementation for secure cloud environments.
- Facilitate GKE and container networking, ensuring secure and scalable deployments for enterprise customers.
- Perform root cause analysis (RCA) and document troubleshooting procedures to improve product supportability.

Senior Network Engineer

Axelon Staffing Services Pvt Ltd, Hyderabad | Sep 2018 - Oct 2021

- Designed and maintained cloud infrastructure, focusing on network protocols, VPCs, and load balancers on AWS and Oracle Cloud.
 - Managed Linux systems and system-level configuration using Ansible.
 - Implemented CI/CD pipelines using Jenkins and Git for automated deployments.
 - Orchestrated containerized applications using Docker in production environments.
-

System Administrator (Linux, Windows & Network)

Ixora Global Services Pvt Ltd, Hyderabad | Sep 2016 - Sep 2018

- Managed server installations (Debian, CentOS) and maintained Linux system/kernel performance.
 - Administered network infrastructure including firewalls, VPNs, and web proxies.
 - Provided technical support for a 250+ user base, resolving operational and process-related issues.
-

Certifications

- Google Cloud Professional Network Engineer
 - Google Cloud Professional Cloud DevOps Engineer
 - Google Cloud Professional Architect
 - Google Cloud Associate Cloud Engineer
 - Google Cloud Professional Workspace Administrator
 - Oracle Cloud Infrastructure Certified Architect Associate
 - Red Hat Certified System Administrator (RHCSA)
-

Education

- **B.Tech in Electronics and Communications Engineering**
- Mohammadiya Institute of Technology, Khammam | 2011-2015
